

MyEnlighten

For System Owners

MyEnlighten connects system owners to their solar experience through an engaging interface that displays energy production, system health and environmental benefits.

One-click sharing with integrated social media buttons. Accessible from any device with an Internet connection.

View historical weather data to understand variations in performance.

Easily verify system health and performance at-a-glance.

System status indicator tells you when the system is not performing as expected and what can be done to restore performance.

Easily compare current performance against a previous day week or month.
